Honorable Philip N. Asprodites  
Commissioner of Conservation  
Office of Conservation  
Post Office Box 94275  
Baton Rouge, LA 70804-4275

Re: 21,300' Tuscaloosa Sand, Reservoir A  
Judge Digby Field  
Pointe Coupee Parish, Louisiana

Dear Commissioner Asprodites:

Application is hereby made on behalf of **AMOCO PRODUCTION COMPANY** for the calling of a public hearing, after ten (10) days legal notice, to consider evidence relative to the issuance of an order pertaining to the following matters relating to the 21,300' Tuscaloosa Sand, Reservoir A, in the Judge Digby Field, Pointe Coupee Parish, Louisiana for which rules and regulations were established and drilling and production units were created for the exploration for and production of gas and condensate by Office of Conservation Order No. 1046-C, effective March 19, 1997, including the unit designated 21300 TUSC RA SUB:

1. To permit the applicant to drill, designate and utilize its Wurtele No. 3 Well as substitute unit well for the 21300 TUSC RA SUB, said well located as shown on the plat attached hereto, in accordance with the spacing provisions of Office of Conservation Order No. 1046-C and Statewide Order No. 29-E.
2. To designate the existing unit well, the Amoco Production Company - W. C. Parlange, Jr. No. 6 Well, as alternate unit well for the 21300 TUSC RA SUB.
3. To find that the proposed substitute unit well, in conjunction with the existing alternate unit well, is necessary to efficiently and economically drain a portion of the reservoir covered by the unit which cannot be so drained by any existing well within such unit.

4. Except to the extent contrary herewith, to continue in full force and effect the provisions of Office of Conservation Order No. 1046-C, the units created thereby, and applicable Statewide Orders.

To consider such other matters as may be pertinent.

The 21,300' Tuscaloosa Sand, Reservoir A, in the Judge Digby Field, Pointe Coupee Parish, Louisiana, was previously defined in Office of Conservation Order No. 1046-C, effective March 19, 1997.

The existing unit well, the Parlange No. 6 Well, is nearing depletion in the unitized interval and will soon be recompleted in a shallower interval. Therefore, the applicant is requesting permission to drill, designate and utilize its Wurtele No. 3 Well as substitute unit well for the 21300 TUSC RA SUB, in exception to the spacing provisions of Office of Conservation Order No. 1046-C.

Attached hereto and made a part hereof is a plat outlining the applicant's proposal and a list of the names and addresses of the Interested Owners, Represented Parties and Interested Parties to whom a copy of this application is being sent. Pursuant to the Revised Rules of Procedure, the list of parties is being furnished only to the Commissioner of Conservation and to the District Manager of the Lafayette District of the Office of Conservation. However, the list of parties will be provided to any party requesting a copy of it. A reasonable effort was made to ascertain the names and addresses of all Interested Owners, Interested Parties and Represented Parties.

Finally, enclosed is our check on behalf of the applicant in the amount of \$700.00 made payable to the Office of Conservation and representing the required hearing application fee.

Very truly yours,

Richard W. Revels, Jr.
